ACADEMIC PROJECTS

Safe Harbour Youth (React, Node.js, Tailwind CSS, Restful APIs, Stripe)

April 2024

- Description:** Developed components for 'Safe Harbour Youth', an online platform designed to support and empower young individuals facing abuse or violence. The project consists of three main components:
 - Youth Connect Portal:** Implemented a user-friendly interface using React and Tailwind CSS, allowing youths to report instances of abuse and connect with NGOs.
 - NGO Response Center:** Developed a secure login and authorization system for NGOs to manage reports, track complaint statuses,
 - Youth Empowerment Hub:** Created a resource-rich platform with educational content and videos using Youth Tube Video embedding to inform and empower users.
 - Additional Features:** Integrated Stripe for donations and implemented dynamic pie charts to display statistical data on user engagement and complaint resolution.

Meeting Notes (React, Node, Rest API)

March 2024

- This Reminder App is a ReactJS-based application designed to help users manage their notes and reminders efficiently. Built with Vite and React libraries, it provides a dynamic user experience with features like viewing, adding, editing, and toggling the completion status of action items in notes. The app leverages MaterialUI for a sleek, user-friendly interface and communicates with a Node.js backend via REST APIs for persistent data storage. Features: View Notes-Display, Edit Notes, Toggle Action, Add New Notes, Automatic Timestamps, Search By Keyword

One- Boston-Drug Regulatory (Java & Java swing based Full stack Project)

December 2023

- Led creation of 'One Boston-Drug Regulator', a Java Swing application, focusing on intuitive user interface design.
- Developed specialized UI panels & login screens for different organizational roles to enhance user interaction & functionality.
- Integrated db4o database for efficient data management and robust backend support.
- Expertly managed the application's architecture, including ecosystems, networks, enterprises, and organizations, demonstrating advanced technical and organizational skills.
